

Sigma Alpha Iota

Is Interested in Working with Girl Scouts!

Sigma Alpha Iota is a professional women's fraternity who adhere to the highest standards of citizenship in school, community and fraternity life and further the development of music in America and throughout the world.

We are always interested in doing new service projects that promote music, and what better way to do that than to help our fellow girls who are also interested in service: the Girl Scouts! We are interested in getting together with troops, no matter what age group, and setting up workshops so that the girls can get their music badges while having fun and enjoying the gift of music. Many of us are music majors, even music education majors, and have the experience, ability, and excitement to teach and pass on our knowledge of music.

If your troop is interested in partnering up for a program, please contact Nicole Wentling, Vice President of the Texas A&M University – Kingsville Chapter. Together we can provide a service to one another that meets the needs of your troop and our fraternity all while having fun and learning all at the same time!
